

TESTIMONIALS

Testimonials for Sue's Reflexology Treatments -

"I had an overactive Thyroid, which at that time was being controlled by drugs. I wanted to have a baby and was very concerned about my medication. At first I found the treatment a little painful, especially around the Thyroid area on the feet. The proof for Sue's treatment came after my blood tests were shown to be normal and my medication reduced. My pregnancy was something Sue announced at the 6 week stage. My blood tests remain normal!"

J.T.

"I was at my wit's end with pain. Sue had no idea we had just started trying for a baby, but at one session she told me I was pregnant. I laughed, I didn't believe it, then the sickness started! I had a test at the Doctors - positive. But I knew, as when Sue told me, I was only 3 days into my pregnancy!"

C.D.

"Straight away Sue picked up that my ovaries, fallopian tubes and uterus were tensed up. I was amazed. I drove home that day feeling more relaxed than I had in ages!"

A.H. Sheffield.

"I can go to see Sue feeling ill and depressed and come out feeling invigorated. Reiki therapy should be on the N.H.S."

L.R., Cancer patient, Sheffield.

"Many Thanks! You were brilliant. I'll take your advice with the Bach remedies. See you again soon."

A. Bowman, Producer, BBC 'Kilroy'

"As she worked, I felt this huge weight of stress being lifted off me, and when I left, I felt as though I was walking on air. It was the first positive step I took and the only thing in a long time that made me feel good about myself."

H.F. Sheffield

"Having suffered severe migraine for 3 years, I visited Sue. I did not believe it could help. After 3 months, they have completely disappeared."

"Sue, thank you for helping our dreams come true. We finally gave birth to our beautiful daughter, Ebony, in April 2009 after 12 years of unexplained infertility- trying anything and everything on the market. Nothing worked until we met you! A week after my first Reflexology treatment I conceived!!! Unbelievable, but true! You have magic fingers Sue, you really are the Babymaker!"

Sue will also take into account the state of your emotional balance, which can affect your fertility, as you may be producing too much stress hormone which will interfere with your reproductive hormones. REFLEXOLOGY

A self-confessed sceptic, Sue discovered the power of reflexology on a holiday in Ireland back in 1986. Her husband Glynn had a treatment and she was amazed that the SRN doing the treatment picked up on various health problems.

She enrolled on a course at the International Institute of Reflexology. Sue was taught that each part of the body has a corresponding area on the foot. By massaging the feet she can restore balance to the body. She calls it 'fortune-telling by feet'.

Sue qualified in Reflexology with Antony Porter and Dwight Byers, the nephew of the founder of Reflexology, Eunice Ingham, at The International Institute of Reflexology in 1988 in London. Little did Sue know, she would be treating her future daughter with Reflexology a few years later!

"People come to see me for various reasons and I evaluate the best treatment for them. It could be Reiki, bach flower remedies or hypnotherapy, but I always start with reflexology. Once the body is back in balance, amazing things can happen. It still amazes even me!"
